

History

"Studying history helps children to understand their place in the world, and in the long story of human development. And it challenges them to make sense of the similarities and differences in human experiences across time and place." [Amanda Spielman]

Curriculum Coverage

Curriculum Coverage					
Upper KS2	Y6		Conflict through Time		Crime and Punishment
	Y5		Anglo Saxon (Local Link) and Viking Britain		Non-European Society- Early Islamic Civilisation
Lower KS2	Y4		Ancient Greece Achievements & their Influence on the Western World		Roman Empire and its Impact on Britain
	Y3		Stone, Bronze and Iron Age		Achievements of the Earliest Civilisations - Depth Study - Ancient Egypt
KS1	Y2		Great Fire of London & Local Study - Great Fire of Gateshead & Newcastle		Comparing Queens
	Y1		Significant Women & their Impact on Medicine		South Shields Seaside Holidays

Intent

Our intention is that every child will be an interested and inquisitive learner of History. We follow the National Curriculum programmes of study for each year group, aiming to create the very best historians, well equipped to continue their studies in history as they move throughout their education. We challenge pupils to think, act and speak like those working in the field would, by developing a consistent approach across all year groups. Substantive knowledge and disciplinary knowledge are explicitly taught. By substantive knowledge we mean the people, events and developments from the past that children will learn about. By disciplinary knowledge, we mean all the various processes that children need to develop if they are to get better at a subject. This can both refer to a process of doing something (e.g. interpreting a source) but also a thought process in order to understand big concepts such as change, continuity and consequence.

High quality history teaching in primary school is our ultimate goal. This forms part of a larger progressive curriculum into KS3 and KS4. Our cohesive approach to teaching History throughout the trust is driven by several key principles. We began with the idea that getting better at history requires both substantive and disciplinary knowledge to be carefully blended together in all planning and teaching. Neither can be taught without the other. When planning our units, we took note of the preambles at the start of each key stage and did not simply focus on the 'Pupils should be taught about' section in order to create clear, cohesive and sequential long-term planning, accounting for prior knowledge and key skills for meaningful progression. Our units recognise that it is fundamental children develop chronological knowledge, both in terms of sequencing periods of history and of having a clear sense of the characteristics of a particular period. Linking learning within and across key stages is essential to developing the bigger picture of history. In order to communicate their understanding, key historical terms are taught well and in context. The explicit teaching of the precise and subtly changing meanings of vocabulary linked to each topic has been developed over time with careful planning and revisiting allowing for long-term retention.

Local history is threaded throughout the learning from EYFS to Y6 to show children the rich, diverse local past we share and to give them a sense of identity and to inspire curiosity in the subject. Children are encouraged to compare concurrent civilisations and previously studied British and World history periods to analyse and derive conclusions on themes of achievements, society, beliefs, settlements, conflict and power.

Historical concepts need to be rooted in the study of actual historical people, events, and development, which allows for the flow of the immediate narrative of learning and brings it to life and serves to build up an unseen and almost instinctive layer that forms our longer-term knowledge. It is this that underpins all future learning, giving us a chronological framework, historical terms and key concepts that enhance our learning across the curriculum.

Implementation

The planning of each unit has been rooted in the four key concepts of: Chronology, Communicating History, Investigating the past and Thinking like a Historian. High quality input from experts and educational resources, including detailed CPD, complement the delivery of specialist learning, just as high-quality teaching responds to the needs of children. Collaborative planning created by both Primary and Secondary colleagues have been built upon with bespoke features throughout covering local history. This provides units of work, rooted in historical content, which focus on embedding challenge, metacognition, retrieval and practice. Children not only think like historians, but are provided with tasks to write like historians; while they also enjoy enquiries and creative tasks that inspire a love of history.

Impact

Pupil dialogue and work in books shows a high standard of history being taught. Pupils are able to talk with historical language and vocabulary about a particular period. They can make links and connections to what they have been taught previously. Historical learning and enjoyment is visible. Assessment is thorough and varies with quizzes on substantive knowledge and writing tasks that test disciplinary knowledge. Key tier 3 vocabulary is revisited in contextual glossaries, while knowledge of the chronology of the period and those periods prior and concurrently are evaluated.
