

## Year 1 Mental Arithmetic Test

Date of Test: 22nd May 2025

This week's maths target:

Recognise and know the value of different denominations of coins and notes.

### Activities

Using real money or the cut out coins attached to this sheet, ask your child to find the different coins. E.g. Can you give me the 20p coin. Talk about the shape, size and colour of the different coins.

You could then show them a coin and ask them to write the value down, remembering to add the 'p' or '£' sign. Ask if they know the value of two coins, e.g. 20p and 2p = 22p

### Example Test Question

During the test a large coins will be held up. The children have to write down the value including the 'p' for pence or a '£' sign.

What is the value of this coin ...

#### Online Learning

Remember to check the websites below for any homework that has been set to support this mental maths test or your child's learning in class.

- ◇ My Maths - Recognising Coins
- ◇ Times Table Rock Stars - 2, 5 & 10 times tables
